

HANDLING PROPANE IS DANGEROUS!

Due to a looming labor dispute between AmeriGas Propane
and the Teamsters,

YOUR SUPPLY OF PROPANE COULD BE CUT OFF,

and you could experience the following:

Goodbye hot showers and warm homes; goodbye
stoves, ovens, and summer barbecues.

Even worse — AmeriGas could replace its skilled
workers with inexperienced ones.

What could happen when inexperienced personnel
attempt to deliver and install *extremely flammable*
propane products?

The photos say it all.
